

### **Scoring Section Instructions**

We have now reached the experience scoring section. You will be presented, in chronological order, with each of the experiences which were proposed to you during the procedure. You will be asked to provide a subjective rating for each experience, that is, how strongly you experienced each phenomenon. Your subjective rating for each can be reported by entering a number on a scale from 0 to 5. Instructions for interpreting the subjective experience scale will be given for each experience. We began the session with an exercise where you imagined yourself walking down some stairs. On a scale from 0 to 5 how absorbed did you feel in your imagination, where 0 means not at all absorbed, 1 means slightly absorbed and 5 means very deeply absorbed in your imagination?
